TABLE DES MATIÈRES

VOLUME 27

Numéro 1

Fliegen als Beute und Bruträuber bei Ameisen (1, 2). Von U. MASCHWITZ und P. SCHÖNEGGE 1

Gallery construction by *Nasutitermes Costalis*: Polyethism and the behavior of individuals. By R.J. JONES 5

Polymorphism and polyethism in the neotropical ant *Cephalotes Atratus* (L.). By M.L. CORN 29

Queen numbers in colonies of ants of the genus *Myrmica*. By G.W. ELMES 34

Elektrophoretische Untersuchungen zur Sekretionstätigkeit der Hypopharynxdrüse der Honigbiene (*Apis Mellifera* L.). Von K. HALBERTSTADT 61

La ponte d'œufs préorientés chez la fourmi *Pheidole pallidula* (Nyl.) (Hymenoptera-Formicidae). Par L. PASSERA 79

Numéro 2

The activity of corpora allata in dominant and subordinated females of the wasp *Polistes gallicus*. By P.-F. RÖSELER, I. RÖSELER and STRAMBI 97

Influences des stimulations sociales sur la persistance du comportement de fondation chez la guêpe poliste. *Polistes gallicus* L. (Hymen. Vesp.). Par M. PRATTE et J. GERVET 108

Social Behaviour during nestmoving in the ant *Myrmica rubra* L. (Hym. Form.). By M. ABRAHAM, and J.M. PASTEELS 127

Foraging ecology of two chihuahuan desert ant species: *Novomessor cockerelli* and *Novomessor albisetosus*. By W.G. WHITFORD, E. DEPREE and P. JOHNSON 148

La parthénogenèse thélytoque et arrhénotique des ouvrières de la fourmi *Cataglyphis cursor* Fonscolombe. — Etude en élevage de la productivité de sociétés avec reine et de sociétés sans reine. Par H. CAGNIANT 157

Onset of the nomadic phase in the army ant *Neivamyrmex nigrescens* (Cresson) (Hym. Form.): distinguishing between callow and larval excitation by brood substitution. By H. TOPOFF, J. MIRENDA, R. DROUAL and S. HERRICK 175

The influence of temperature upon the rate of CO_2 production in enflurane anaesthetized worker ants of *Formica rufa* L. By I. HOLM-JENSEN, T.F. JENSEN and M.G. NIELSEN 180

Numéro 3

Body size as a determinant of small-scale distributions of ants in evergreen woodland, southastern Arizona. By A. EASTLAKE CHEW and R.M. CHEW 189

Observer ants : storers of foraging area information in *Formica rufa* L. (*Formicidae, Hymenoptera*. By A.A. ZAKHAROV 203

La fonction inhibitrice des reines de la fourmi *Plagiolepis pygmaea* Latr. : rôle des phéromones. Par L. PASSERA 212

Note préliminaire sur la structure, la phénologie et le régime alimentaire d'une super-colonie de *Formica Lugubris Zett.* Par D. CHERIX 226

The foraging system of *Pheidole militicida* (Hymenoptera : Formicidae). By B. HOLLDOBLER and M. MOGLICH 237

Repertoire convergence in two Mangrove ants, *Zacryptocerus varians* and *Camponotus* (*Colobopsis*) Sp. By B.J. COLE 265

News of the Polish Section of the Internation Union for the Study of Social Insects 276

Numéro 4

Factors preceding queen rearing in the Africanized honeybee (*Apis mellifera*) in south america. By M.L. WINSTON and O.R. TAYLOR 289

A monogynous eusocial insect worker population model with particular reference to honeybees. By A.R. MCLELLAN, C.W. ROWLAND and R.H. FAWCETT 305

Dominance and hierarchy in *Polistes* colonies : correlation with photoelectric properties of their yellow strips. By B. PERNA and J.S. ISHAY 312

Systèmes d'approvisionnement chez *Myrmica scabrinodis* (formicidae). Par M.C. CAMMAERTS 328

On a anomalous individual of *Polistes versicolor* (Olivier 1791), (Vespidae, polybiinae). By F.A. MATTHIESEN and VILMA MAULE RODRIGUES 343

Notes on female and worker survivorship in the archaic ant genus *myrmecia*. By C.P. HASKINS and E.F. HASKINS 345

Evidence of competition between two species of desert ants. By P.A. BYRON, E.R. BYRON and R.A. BERNSTEIN 351

Histological and size changes in corpora allata and prothoracic glands during development of *Macrotermes michaelseni* (*Isoptera*). By B.M. OKOT-KOTBER 361

Trophic competition among parabiotic ants. By R.B. SWAIN 377

Swarming, afterswarming, and reproductive rate of unmanaged honeybee colonies (*Apis mellifera*). By M.L. WINSTON 391

Variations biométriques des corps allates pendant la différenciation des castes reine et ouvrière chez *Pliagolepis pygmaea* Latr. (*Hymenoptera formicidae*). Par J.P. SUZZONI et A. GRIMAL 399

TABLE DES AUTEURS

VOLUME 27

ABRAHAM (M.) and PASTEELS (J.M.). — Social Behaviour during nestmoving in the ant *Myrmica rubra* L. (Hym. Form.) 127

BYRON (P.A.), BYRON (E.R.) and BERNSTEIN (R.A.). — Evidence of competition between two species of desert ants 351

CAGNIANT (H.). — La parthénogenèse thélytoque et arrhénotique des ouvrières de la fourmi *Cataglyphis cursor* Fonscolombe. - Etude en élevage de la productivité de sociétés avec reine et de sociétés sans reine 157

CAMMAERTS (M.C.). — Systèmes d'approvisionnement chez *Myrmica sabrinodis* (formicidae) 328

CHERIX (D.). — Note préliminaire sur la structure, la phénologie et le régime alimentaire d'une super-colonie de *Formica Lugubris Zett* 226

COLE (B.J.). — Repertoire convergence in two Mangrove ants, *Zacryptocerus varians* and *Camponotus* (*Colobopsis*) Sp. 265

CORN (M.L.). — Polymorphism and polyethism in the neotropical ant *Cephalotes Atratus* (L.) 29

EASTLAKE CHEW (A.) and CHEW (R.M. — Body size as a determinant of small-scale distributions of ants in evergreen woodland, southastern Arizona 189

ELMES (G.W.). — Queen numbers in colonies of ants of the genus *Myrmica* 34

HALBERSTADT (K.). Elektrophoretische Untersuchungen zur Sekretionstätigkeit der Hypopharynxdrüse der Honigbiene (*Apis Mellifera* L.) 61

HASKINS (C.P.) and HASKINS (E.F.). — Notes on female and worker survivorship in the archaic ant genus *myrmecia* 345

HOLLDOBLER (B.) and MOGLICH (M.). — The foraging system of *Pheidole militicida* (Hymenoptera : Formicidae) 237

HOLM-JENSEN (I.), JENSEN (T.F.) and NIELSEN (M.G.). — The influence of temperature upon the rate of CO_2 production in enflurane anaesthetized worker ants of *Formica rufa* L. 180

JONES (R.J.). — Gallery construction by *Nasutitermes Costalis* : Polyethism and the behavior of individuals 5

MCLELLAN (A.R.), ROWLAND (C.W.) and FAWCETT (R.H.). — A monogynous eusocial insect worker population model with particular reference to honeybees..... 305

MASCHWITZ (U.) und SCHÖNEGGE (P.). — Fliegen als Beute und Bruträuber bei Ameisen (1, 2) 1

MATTHIESEN (F.A.) and VILMA MAULE RODRIGUES. — On an anomalous individual of *Polistes versicolor* (Olivier 1791), (*Vespidae, polybiinae*) 343

News of the Polish Section of the Internation Union for the Study of Social Insects. 276

OKOT-KOTBER (B.M.). — Histological and size changes in corpora allata and prothoracic glands during development of *Macrotermes michaelseni* (*Isoptera*) 361

PASSERA (L.). — La ponte d'œufs préorientés chez la fourmi *Pheidole pallidula* (Nyl.) (Hymenoptera-Formicidae) 79

PASSERA (L.). — La fonction inhibitrice des reines de la fourmi *Plagiolepis pygmaea* Latr. : rôle des phéromones 212

PERNA (B.) and ISHAY (J.S.). — Dominance and hierarchy in *Polistes* colonies : correlation with photoelectric properties of their yellow strips 312

PRATTE (M.) et GERVET (J.). — Influences des stimulations sociales sur la persistance du comportement de fondation chez la guêpe poliste, *Polistes gallicus* L. (Hymen. Vesp.) 108

RÖSELER (P.-F.), RÖSELER (I.) and STRAMBI (A.). — The activity of corpora allata in dominant and subordinated females of the wasp *Polistes gallicus* 97

SUZZONI (J.P.) et GRIMAL (A.). — Variations biométriques des corps allates pendant la différenciation des castes reine et ouvrière chez *Pliagolepis pygmaea* Latr. (*Hymenoptera formicidae*) 399

SWAIN (R.B.). — Trophic competition among parabiotic ants 377

TOPOFF (H.), MIRENDA (J.), DROUAL (R.) and HERRICK (S.). — Onset of the nomadic phase in the army ant *Neivamyrmex nigrescens* (Cresson) (Hym. Form.) : distinguishing between callow and larval excitation by brood substitution 175

WHITFORD (W.G.), DEPREE (E.) and JOHNSON (P.). — Foraging ecology of two chihuahuan desert ant species : *Novomessor cockerelli* and *Novomessor albisetosus* 148

WINSTON (M.L.). — Swarming, afterswarming, and reproductive rate of unmanaged homeybee colonies (*Apis mellifera*) 391

M.L. WINSTON and O.R. TAYLOR. — Factors preceding queen rearing in the Africanized honeybee (*Apis mellifera*) in south america 289

ZAKHAROV (A.A.). — Observer ants : storers of foraging area information in *Formica rufa* L. (*Formicidae, Hymenoptera*) 203
